

# Child Find Process

## "What Happens Next?"

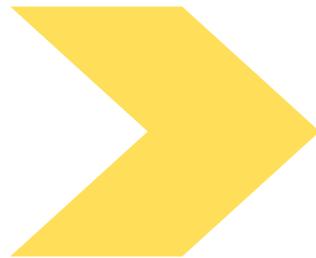

*A Parent's Guide*

I have completed registration for a referral to be sent.

An IEP Meeting will be held within **30 days** of the team receiving the referral.

At the IEP Meeting, the team determined assessments are not needed (based on referral information).

The process for the student stops here, and the team may make recommendations.

Should the parent obtain additional information once this decision is made, another referral can be submitted through the Child Find Office.
