

Prince George's County Public Schools
SafeSchools Requirements
Fort Foote Elementary School
October 3, 2017

We are pleased to announce that the Communications office has established a link to the required training modules on SafeSchools for volunteers and contractors to access. All volunteers, except one-time event volunteers, are required to complete the assigned SafeSchools training modules prior to volunteering. Upon completion of each training module, the volunteer should provide you with a copy of their certificates of completion. Three modules have been assigned to volunteers to complete. They are: PGCPS Mandatory Reporting of Child Abuse and Neglect; PGCPS Student Safety Procedural Changes; and Bloodborne Pathogen Exposure Prevention. Volunteers should provide you with a certificate of completion for each of these modules prior to volunteering. Directions for accessing the link are attached. Please do not hesitate to call 301-952-6774 if you have any questions.

Volunteer and Contractor – Safe Schools training

I just wanted to let you know that our Communications Office has been able to set up the Safe Schools link for Volunteers, contractors who work with students (Student Contractors), and contractors who do not work with students (Non-student contractors).

Directions for accessing the link are as follows:

1. Click on the Student Safety tab at the bottom of the home page on PGCPS' website.
2. Click on Required Training for Volunteers and Contractors.
3. You will then see three tabs – Volunteers, Student Contractors, and Non-student Contractors. Click on the tab that applies to your status and complete the registration information. Upon registration into SafeSchools, a screen will appear that lists the required training module(s).
